

TECHNOLOGY AND WELLNESS  
POLIGEL - MYTENCEL

Visco Fresh is a mattress that meets the demand for **natural** and **environmentally friendly** products.

In fact, the **Tencel** fabric is of **natural origin, regenerable** and **organic**.

The presence of a comfortable, **thermoregulating Polygel** comfort layer works in synergy with the lining by absorbing and **dissipating** body **heat**, reducing overheating and night sweating. An additional **comfort-enhancing** layer is made of **Memory Soft Touch** for a **relaxing sensation** of suspension.

The core is made of two **polyurethanes**, one stiffer and the other more elastic, which **optimise weight distribution**.  
- Height **23cm**
