

TECHNOLOGY AND WELLNESS
THE BENEFITS OF SOYA FABRIC

COTONE ORGANICO

This mattress is dedicated to those who love to feel the **contact** with **nature**, in fact the **hypoallergenic Stretch Soya** fabric combined with Cotton offers a natural sensation to our rest.

Montreal accommodates the body with an important **7 cm** thickness of **Memory Soft Touch** supported by a sturdy **Polilattex** base of medium bearing capacity.

The synergy of these two materials is able to **mould itself** through the **thermal action of the body**, thus minimising pressure points for **correct posture** and **quality rest**.

In addition, the **3D fabric layer** in contact with the mesh **optimises transpiration**.
