

**Topper Moontex** is placed against the mattress to **improve** and **correct** the **bearing capacity**, making it much **more comfortable**.

The feature that makes it useful is the pleasant **softness** provided by the **anti-decubitus** properties of **Memory Foam**, which reduces **compression** on the body surface.

The **Topper Moontex** is non-deformable and equipped with **4 corner elastics** to anchor it firmly to the mattress.

This **removable, anti-decubitus** topper is comfortable both at home and **practical to take** on any **journey!**

- Height **6cm**

## CASING CHARACTERISTICS
